What is Beanstack?

Beanstack is an online software that patrons can utilize to register for the 2021 Summer Reading Challenge for the Dr. Eugene Clark summer reading program. Sign up takes only a couple of minutes and is quick and easy! Here patrons can track books, minutes, log activities, and write books reviews.

How do patrons enroll in a program using Beanstack?

Patrons may access Beanstack through our library's webpage or using the URL lockharttx.beanstack.org

If you have already signed up for Beanstack in the past, via another library or school reading program, there is no need to re-register. Simply sign in and enroll for the Dr. Eugene Clark Library reading challenge. It is best to use the URL provided above to go straight to our library's content.

Once an **adult** signs up, they will see the available library programs for their age group. If an adult signs a child up, or a teen signs themselves up, they will see the programs available for their particular age group.
